The image shows a standard European energy label for a Hitachi 39HE4100 monitor. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt icon. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "39HE4100" are printed. The central part of the label features a vertical scale of seven energy efficiency classes, represented by colored arrows pointing to the right: A (green), B (light green), C (yellow-green), D (yellow), E (orange-yellow), F (orange), and G (red). A black arrow points to the class "F", indicating the monitor's energy efficiency. Below the scale, the energy consumption is listed as "43 kWh/1000h". Underneath, a diagram of the monitor shows its dimensions: a width of 1920 pixels, a height of 1080 pixels, a diagonal length of 98 cm, and a diagonal length of 39 inches. At the bottom, there is a barcode and the number "50550092". On the far right edge, the date "2019/2013" is printed vertically.
