The image shows a standard EU energy label for a Hitachi monitor. At the top left is the European Union flag and the word "ENERGY" in blue. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "43HAK6151" are printed. The main part of the label is a vertical scale of seven colored arrows representing energy efficiency classes from A (green) at the top to G (red) at the bottom. The arrow for class G is highlighted with a black arrow pointing to it from the right, indicating the monitor's energy class. Below the scale, the energy consumption is listed as "54 kWh/1000h". Underneath, there is a section for "HDR" with a scale from A to G, where G is also indicated. Below that, the monitor's resolution is shown as "3840 px" and "2160 px" with a diagram of the monitor screen. The screen dimensions are given as "108 cm" and "43\".
