The image shows a standard EU energy label for a Hitachi monitor. At the top left is the European Union flag and the word "ENERG" with a lightning bolt. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "32HAE4252" are printed. The main part of the label is a scale from A to G, with A being the most efficient (green) and G being the least (red). An arrow points to the letter "F", indicating the monitor's energy class. Below the scale, the energy consumption is listed as "32 kWh/1000h". Underneath, there is a section for "HDR" with a scale from A to G, also pointing to "F". Below that, a monitor icon is shown with its dimensions: 1920 px width, 1080 px height, and a diagonal of 80 cm (32 inches). At the bottom, there is a barcode and the number "50551069". A small date "2019/2013" is printed vertically on the right side.
