The image shows a standard EU energy label for a Hitachi monitor. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "32HAE2252" are printed. The main part of the label is a scale of energy efficiency from A (green) to G (red). The monitor's rating is F, indicated by a black arrow pointing to the 'F' bar. Below the scale, the energy consumption is listed as "32 kWh/1000h". Underneath that is a smaller version of the scale with "HDR" highlighted in a black box, and the same energy consumption value "32 kWh/1000h". A monitor icon shows a resolution of "1366 px" and a diagonal size of "80 cm / 32\"", with a height of "768 px" also indicated. At the bottom, there is a barcode and the number "50551071". The date "2019/2013" is printed vertically on the right side.
