The image shows a standard European energy label for a Hitachi television. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt icon. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "32HAE2250" are printed. The main part of the label features a vertical scale of energy efficiency classes from A (green) at the top to G (red) at the bottom. The class "F" is highlighted with a black arrow pointing to it from the right. Below the scale, the energy consumption is listed as "32 kWh/1000h". Underneath, there is a section for "HDR" with a scale from A to G, where "F" is also highlighted. Below that, a diagram of the television shows its dimensions: a width of 1366 px, a height of 768 px, and a diagonal screen size of 80 cm (32 inches). At the bottom, there is a barcode and the number "50551066". A small date "2019/2013" is printed vertically on the right side of the label.
