The image shows a standard EU energy label for a Hitachi monitor. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "43HAK6151" are printed. The main part of the label is a scale of energy efficiency from A (green) to G (red), with a black arrow pointing to G. Below the scale, the energy consumption is listed as "54 kWh/1000h". Underneath, there is a section for "HDR" with a scale from A to G, also pointing to G, and the same energy consumption value "54 kWh/1000h". A monitor icon is shown with its resolution "3840 px" and "2160 px" and its size "108 cm" and "43\". At the bottom, there is a barcode and the number "50551036". The date "2019/2013" is printed vertically on the right side.
