| <b>Mercury (mg)</b>                | 0                |
| <b>12V TV (Mobile TV)</b>          | No               |

The image shows a standard European energy label for a Hitachi television. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt. To the right is a QR code. Below this, the brand name "HITACHI" and the model number "32HAE2250" are printed. The energy efficiency scale is shown as a vertical bar with seven levels: A (green), B (light green), C (yellow-green), D (yellow), E (orange), F (red-orange), and G (red). An arrow points to level F, indicating the product's energy efficiency. Below the scale, the energy consumption is listed as "32 kWh/1000h". Underneath, there is a section for "HDR" with a scale from A to G, also pointing to F, and the same energy consumption value "32 kWh/1000h". A diagram of the television shows a screen with a diagonal measurement of 80 cm (32 inches) and a resolution of 1366 px by 768 px. At the bottom, there is a barcode and the number "50551066". A small date "2019/2013" is printed vertically on the right side.
