The image shows a standard EU energy label for a Hitachi television. At the top left is the European Union flag and the word "ENERGY" with a lightning bolt. To the right is a QR code. Below this, the brand name "HITACHI" and model number "32HAK2250" are printed. The main part of the label is a scale of energy efficiency from A (green) to G (red). The scale is marked with letters A through G, and a black arrow points to the letter "F", indicating the product's energy class. Below the scale, the energy consumption is listed as "32 kWh/1000h". Underneath that, there is a section for "HDR" with a scale from A to G, also marked with "32 kWh/1000h". Below the HDR section, the resolution "1366 px" and "768 px" are shown, along with a diagram of a television screen with dimensions "80 cm" and "32\".
